ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1. ABOUT THIS REPORT

1.1. Environmental, Social and Governance to Support Sustainable Development

The global health and economic crisis resulting from the COVID-19 pandemic has intensified investors and corporate stakeholders' concern about their interest regarding environmental, social, and governance ("ESG") matters. ESG are the preferred and important factors to measure a company's non-financial performance, as well as for company valuation, risk management and regulatory compliance. It is inevitable that the ESG performance of corporations is one of the key criteria to demonstrate companies' corporate social responsibility and their sustainability in the future. i.century Holding Limited (the "Company") and together with its subsidiaries, (the "Group") is pleased to present this ESG report (the "Report"), which demonstrates the ESG performance of the Group in achieving sustainable development for the future.

1.2. The Group's ESG Commitment

The Board (the "Board") of directors (the "Directors") of the Company understands its responsibility and strives to perform in a way that respects and benefits its employees, customers, investors and the communities. The Board is committed to lead and steward the Group with the aim to achieve long-term returns to its shareholders, to provide a safe working environment to its employees, and to generate a positive impact on the society and the environment. By assessing and evaluating ESG related risks and reporting performance, the Group sets the overall strategic goals, supervises management effectiveness, and ensures operational reliance and compliance with the relevant legal and regulatory requirements. Both qualitative information and quantitative data have been collected for the Report to demonstrate the Group's commitment to sustainability and performance.

1.3. Reporting Scope

The Report identified and described the policies, management approach and performance of the Group in respect of corporate social responsibility. The Report is focused on the Group's core and material business in the management of the apparel supply chain including product development, sourcing and procurement of raw materials, production management, quality control to logistics arrangement. The headquarters of the Group is in Hong Kong and there are representative offices in the People's Republic of China (the "PRC"), the United States of America (the "USA"), France and Australia. The Report is prepared in accordance with the reporting principles of 'Materiality', 'Quantitative', 'Balance' and 'Consistency'. With the aim to optimise the reporting process and expand disclosures in The Report, the Group is dedicated in gathering the relevant data, formulating, implementing, and monitoring policies. The Group makes every effort to ensure consistency between the Chinese and English versions of The Report. However, in the event of any inconsistency, the English version shall prevail. The Report was reviewed and approved by the Board on 13 August 2021.

1.4. Reporting Period

This Report illustrates and highlights the environmental and social performance of the Group for the reporting period from 1 April 2020 to 31 March 2021 (the "Reporting Period").

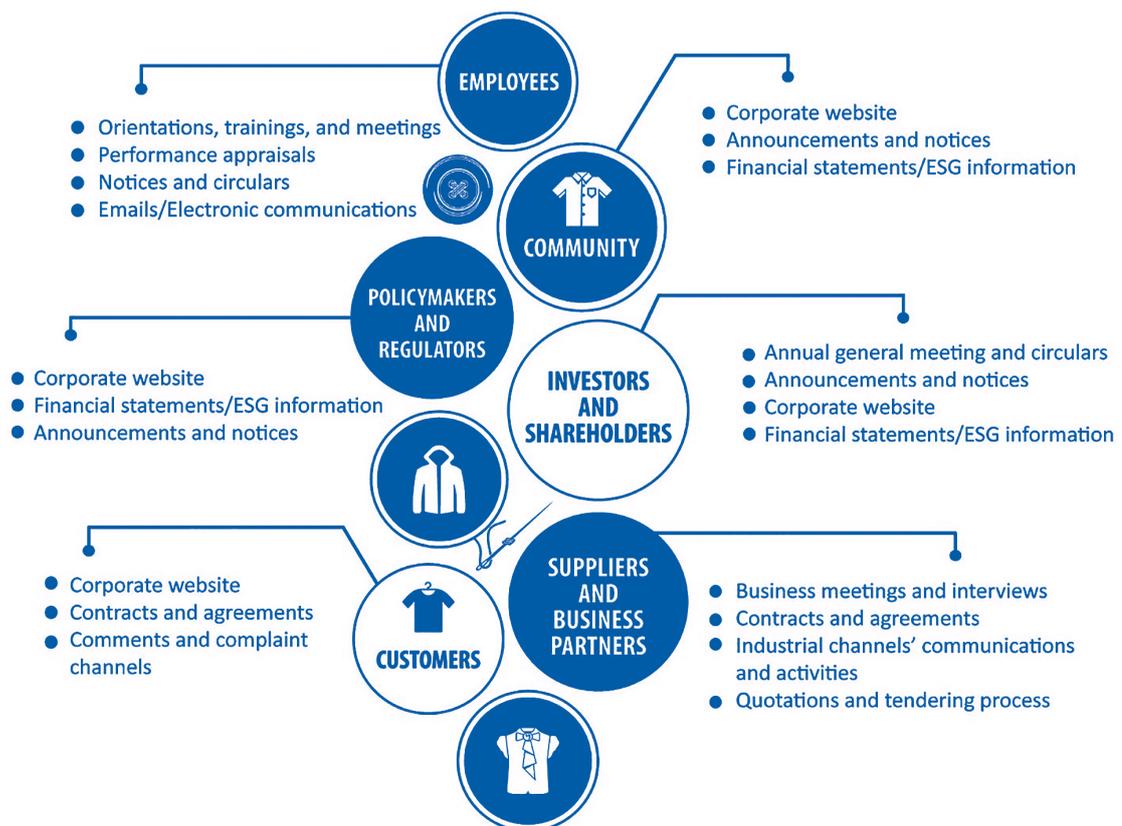

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1.5. Reporting Framework

The Report is prepared in accordance with the disclosure requirements as set out in the ESG Guide (the “ESG Guide”) contained in Appendix 20 of the GEM Listing Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “GEM Listing Rules”). The Report complies with the “comply or explain” provisions of the ESG Guide.

1.6. Stakeholder Engagement

As a responsible business enterprise, it is essential for the Group to understand its stakeholders’ expectation and concerns with regards to its business development strategies, risk management measures and internal control systems. The Group strives to foster a collaborative relationship with its stakeholders including policymakers, regulators, employees, customers, shareholders, investors, business partners, suppliers and community members, to understand and identify opportunities and risks during business development. The Group engaged its stakeholders through various communication approaches to communicate thoughts and ideas, review ESG goals and collect comments and feedback with the aim to structure business strategies that can create long-term value for its stakeholders. The following stakeholder engagement approaches were applied during the Reporting Period.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

1.7. Stakeholders' Feedback

The Group welcomes stakeholders' comments and feedbacks regarding its ESG performance and approach as they are valuable to its risk management and continuous improvement. Please send your questions, suggestions, and recommendations to the Group:

Address: Unit 212-215, 2/F, Elite Industrial Centre, 883 Cheung Sha Wan Road, Lai Chi Kok, Kowloon, Hong Kong.

1.8. Materiality Analysis

Materiality Analysis is crucial to the Group as a material issue can have a major impact on the financial, economic, and legal aspects of every corporation. To ensure that its business objectives and development direction are coincided with the stakeholders' expectations and needs, the Group has evaluated all potential ESG risks and opportunities by assessing their importance to the stakeholders and the Group through various communication approaches. By conducting stakeholder engagement exercise, management reviews and industry analysis, the Group identified that regulatory compliance, supply chain, and resources availability and allocation are issues of high materiality.

2. ENVIRONMENTAL PERFORMANCE

2.1. Emissions Policy and Compliance

The Group's core business is basically to design, source and procure fabric and raw materials, manage production, control quality, and to arrange the logistics of garment products. The Group complies with all material aspects of applicable environment protection laws and regulations in the countries it has operations and does not involve in air (dust and residues), water, and noise pollution. While the Group's operations are mainly conducted through office-based work, minimal environmental impact is caused. In addition, the Group is aware of the industry's Higg Index, which was developed by the Sustainable Apparel Coalition, to measure and score a company's environmental, labour and social impacts on their product's sustainability performance. Thus, improving ESG related performance is also the commitment of the Group.

2.2. Carbon Footprint – Greenhouse Gas Emissions

Carbon footprint is defined as the total amount of direct and indirect emissions of greenhouse gas ("GHG") expressed in terms of the equivalent amount of carbon dioxide ("CO₂-e") emissions. During the Reporting Period, the total operation area comprising the Group's headquarters and offices, was 4,221.57 square metres ("m²") (2020: 961.36 m²) and was accounted for 100% of its GHG emissions.

The total net GHG emissions generated by the Group was 37.79 tonnes of carbon dioxide equivalent ("tCO₂-e") (mainly carbon dioxide, methane and nitrous oxide) during the Reporting Period (2020: 74.56 tCO₂-e). The carbon emission intensity was 0.009 tCO₂-e/m² (2020: 0.078 tCO₂-e/m²), a year-over-year decrease of 88.5%.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group has made great efforts in controlling its emissions as well as its consumption of resources. Its energy conservation practices included deploying energy saving lightings, switching off idle lightings, computers and electrical appliances and equipment, monitoring water consumption, using digital technology and recycled paper, encouraging the use of public transport and using tele or video conferencing as an alternative to business travel.

The following table listed the carbon footprint of the Group.

Scope	Sources of GHG emissions	2021	2020	2019
		GHG* emissions (in tCO ₂ -e)		
1	Mobile – Gasoline	4.26	8.94	0
2	Purchased electricity	26.58	42.63	37.15
3	Disposal of paper waste	6.85	22.90	11.58
	Fresh water processing	0.07	0.06	0.04
	Sewage water processing	0.03	0.03	0.01
	Total GHG* emissions	37.79	74.56	48.78
	Carbon Emission intensity per m²	0.009	0.078	0.060
	Carbon Emission intensity per million HKD revenue[^]	0.40	0.69	0.40

* The GHG is calculated according to the “Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes) in Hong Kong” jointly published by Environmental Protection Department and Electrical and Mechanical Services Department.

[^] During the Reporting Period, the total revenue of the Group was HKD94,509,000 (2020: HKD108,158,000, 2019: HKD121,156,000).

2.3. Air emission

Air emission was generated from the use of gasoline and diesel-powered motor vehicles for employees commuting and transportation. The combustion of gasoline and diesel fuel in vehicle engines produces emissions of air pollutants into the environment. To reduce air pollution, the Group will continue to encourage employees to use public transportation when possible.

The following table listed the estimated air emission of the Group.

Types of Pollutants	2021	2020	2019
	Emission Data (kilogram) (“kg”)		
Nitrogen Oxides (NO _x)	0.84*	1.12*	Not applicable
Sulphur Dioxide (SO ₂)	0.02	0.05	Not applicable
Particulate Matter	0.06*	0.08*	Not applicable

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

2.4. Hazardous and Non-hazardous Waste Disposal

The operating activities of the Group do not produce any hazardous waste to the environment. Paper and its related printed matters were the only non-hazardous waste generated. The Group has been putting great efforts in reducing paper use during the Reporting Period, the GHG emissions constituted by paper waste was 6.85 tCO₂-e (2020: 22.90 tCO₂-e/m²). Paper waste from the offices was collected by the property management for recycling and disposal. The Group will continue to monitor its paper reuse and recycling efficiency to reduce paper consumption and disposal.

2.5. Use of Resources

The Group encouraged efficient use of resources by proactively raising the environmental awareness of employees. During the Reporting Period, the primary resources consumed by the Group were electricity, gasoline, water and paper. Due to the Group's business nature, no packaging materials were used.

Fossil Fuel Consumption – Gasoline

The air emission of motor vehicles may affect the people and neighbouring communities through air pollution and smog. The Group consumed 1,573.45 litre ("l") of gasoline during the Reporting Period, which constituted to 11.3% of the Group's total carbon footprint. Regular vehicle maintenance was conducted to ensure the vehicles are operated at their optimal performance to enhance fuel efficiency.

Energy Consumption – Electricity

The total electricity consumption was 70,487.00 Kilowatt-hour ("kWh") and constituted to 70.3% of the Group's total carbon footprint. It was attributed to the electricity usage of lightings, air-conditioning, and electrical appliances and equipment. The Group's energy saving practices also include the use of window blinds in the office for heat insulation during summer season. The Group will continue to monitor its performance in the conservation of energy related resources.

Water Consumption

During the Reporting Period, the Group did not encounter any issue in sourcing water that was fit for purpose. The total freshwater consumption was 168.00 cubic meters (m³). However, it did not reflect the total water consumption of the Group as some of its offices are located in office buildings where water usage was included in the property management fee. Besides, the amount of water used was insignificant. Nevertheless, the Group cherish the earth's water resource, special attention is given to avoid wastage.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Paper and Printed Matters Consumption

During the Reporting Period, the total paper consumption was 1,428.10 kg and constituted to 18.1% of the Group's total carbon footprint. Paper was used by administration, marketing, and report publication purposes during the Reporting Period. Reducing the consumption of paper and printed matters has been one of the environmental objectives of the Group, the employees are actively reusing and recycling paper to reduce waste.

The following table summarised the consumption of different resources by the Group.

Scope	Sources of GHG emissions	2021		2020		2019	
		Consumption	Intensity	Consumption	Intensity	Consumption	Intensity
1	Mobile – Gasoline	1,573.45 l	0.08 tCO ₂ -e/ employee	3,303.00 l	0.18 tCO ₂ -e/ employee	N/A	N/A

4. OPERATING PRACTICES

4.1. *Supply Chain Management*

Transparency and integrity across the supply chains is one of the top priorities of the Group. Stringent procurement policy has been established to ensure goods and services are procured in an honest, competitive, fair, and ethical manner that delivers the highest cost performance. The Group works with many different garment manufacturers and material suppliers across its supply chain. By positioning in the middle stream of the value chain in the apparel industry, the quality compliance and performance of upstream manufacturers is of utmost importance. Since the final garments must be made in accordance with the specifications and requirements as requested by customers, manufacturers and material suppliers are chosen carefully based upon documented procedures, due diligence check, and clear criteria including product range, quality assurance, pricing, production facilities, labour laws compliance, and financial standing. to ensure quality compliance and manufacturing standard.

4.2. *Manufacturer and Supplier Engagement*

The Group believes that establishing a strong cooperative relationship with its suppliers can ensure the effectiveness of its supply chain and the quality of its garments. By using strategic manufacturers and material suppliers who offer high quality, reliable, safe, and technologically advanced products, the Group is able to ensure the superior quality of its garments. During the Reporting Period, 298 suppliers (2020: 210) were listed on the approved suppliers list which the Group would review periodically and provide updates to its employees. The Group also monitors, audits and manages processes from materials selection, production, labour standard, quality management system, environmental consciousness, and logistics arrangement to ensure its supply chain is operated effectively and efficiently that guarantees the quality and standard of its garments.

4.3. *Product Responsibility and Quality Assurance Process*

The Group is committed to providing high quality, stylish and fashionable garments to its customers. During the Reporting Period, a total of 895,299 pieces of garment (2020: 1,038,310 pieces) were shipped to over 30 countries (2020: 30 countries) including Australia, Canada, France, Japan and the USA. To ensure the garments are manufactured according to the customers' product design specification, pre-production meetings are conducted to understand customers' budget, expectation, and brand requirement. At the same time, ideas are exchanged for quality assurance and on-going cooperation. Prototype and salesman samples are made for customers' approval once the manufacturing details are confirmed; while pre-production samples are made for customers' final approval before the bulk production is scheduled.

The Group performs annual assessment to evaluate the overall performance of its manufacturers and suppliers with documented reports for continuous improvement. During the Reporting Period, there was no significant complaints received regarding garment quality or delivery commitment.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

4.4. Data Protection and Privacy Policy

The Group is committed to managing and protecting the data of its employees, customers, manufacturers and suppliers to ensure their privacy and confidentiality. To comply with the Personal Data (Privacy) Ordinance (Chapter 362 of the Laws of Hong Kong) and as stipulated in the code of conduct on information confidentiality and computer security, employees are instructed of their responsibility to ensure the safekeeping of all personal data, trade secrets and proprietary information they have accessed to or collected during the Group's business activities. The Group's servers and computers are protected from access passwords, employees are responsible for the integrity and confidentiality of the data when using computers for data processing.

4.5. Protecting Intellectual Property Rights

The Group understands that the protection of industrial design in the apparel industry is a critical and important material aspect. To comply with the intellectual property (the "IP") rights regulation and to protect its customers, the Group has made tremendous effort in protecting the IP rights of its customers by obtaining the approval and consent to manufacture the garments. During the Reporting Period, there was no material infringement of any IP rights, and the Group is confident that all reasonable measures have been taken to prevent any infringement of its own IP rights and the IP rights of its customers and third parties.

4.6. Anti-corruption Policy and Compliance

The Group is committed to conducting business with the highest level of business ethics, integrity, and professionalism, which is key to maintaining trust and building sustainable relationships with its stakeholders. Employees must adhere to the Group's code of conduct which provides clear guidance on how business activities should be conducted. The Group strictly complies with the Prevention of Bribery Ordinance (Chapter 201 of the Laws of Hong Kong). To formalize the commitments, employees are required to take personal responsibility for observing the highest standards of integrity and conduct when dealing with the Group's business. All non-compliance with the code or fraudulent practices including the action to offer, provide, obtain, receive an advantage or to avoid an obligation are strictly forbidden.

4.7. Conflict of Interest Policy

The Group requires its directors to avoid the conflict between personal and financial interest and the professional official duties in the Group. A situation in which the directors exercise authority, influence decisions and actions or gain access to valuable information when dealing with third parties with their profession to achieve financial and personal gain is strictly prohibited. The Group's code of conduct requires its directors to declare any conflict of interest to the company secretary on an annual basis.

4.8. Preventive Measures and Whistle-blowing Procedures

The Group encourages whistleblowing whereas an employee or a third party could report any suspected cases of corruption, theft, fraudulent activities, and conflict of interest to the company secretary in strict confidence. Incidents and allegations or suspicions of fraud are assessed and investigated. The Group conducts periodic and systematic risk assessment and communicates related anti-fraud policies and procedures to employees on a regular basis. During the Reporting Period, the Group was not aware of any non-compliance with relevant laws and regulations that would have any significant impact on the Group, nor any corruption litigation against the Group or its employees.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

5. COMMUNITY INVESTMENT

5.1. Charitable Donations and Community Care

The Group's community investment policy is designed to support charitable and non-profit organisations through donations and community care programs. During the Reporting Period, garment samples and usable clothing products were set aside for donating to The Salvation Army, however, the COVID-19 pandemic has affected the arrangement. The Group will continue to explore other opportunities in giving back to the community and supporting other charity projects and community events.

6. THE SUSTAINABLE FUTURE

Global trade has recorded a gradual recovery from the recession caused by the COVID-19 crisis, the Group's major customers located in Australia, Europe and the USA have committed their merchandising orders as the economy is slowly picking up due to the rebound of consumer demand. The Group is confident that the apparel sector continues to remain a key economic growth engine since clothing is an integral part of people's lives.

However, the increasing concerns towards resources deprivation and environmental degradation surrounding the apparel industry continue to be a challenge. The Group will work with its employees, customers and manufacturers to be eco-conscious with respect to product lifecycle, from fabric and materials selection to the design, production management and logistics arrangement to overcome the challenges and be able to expand and flourish in the industry.
